TheCompuLab TECHNOLOGY SOLUTIONS

SIMPLIFY. STREAMLINE. SECURE.

Co-Managed IT Services for SMBs

We help businesses "flex" their IT muscles, adapt to changing platform and technical needs, and maximize their IT spend.

Co-Managed IT services is what we do! By augmenting your internal IT resources—we provide the flexibility, expertise, and support for you to confidently and continuously improve your operations, tech stack, and digital customer experience.

With TheCompuLab—there's no reason IT challenges should stifle your business growth. With Co-Managed IT, we help alleviate existing IT burdens as well as the hiring demands that typically accompany periods of rapid growth.

Do any of these sound familiar? If so, let's talk:

⚠️ Lacking a particular IT expertise or background?

⚠️ Internal IT resources always busy or overburdened?

⚠️ Lacking or outdated ransomware mitigation strategy?

⚠️ Don't have a defined IT or infrastructure roadmap?

⚠️ Concerned about compliance and security risks with aging infrastructure?

### Co-Managed IT Is Ideal For...

✅ Growing companies with 100+ computers/users

✅ Mid-sized businesses with an internal IT person or IT team

✅ Growing enterprises that need help with a specific technology expertise

✅ Businesses that are looking to outsource technology overhead

✅ Companies looking to grow quickly and need "flex" resources

OUR SERVICES ➡️

Certified & Connected

Part of our commitment to excellence means maintaining strategic partnerships, certifications, and training to support evolving IT/security needs.

That way... you don't have to.
